Illustrated vocabulary of earthquake words

Earthquake word.

Liquifaction

A process by which water-saturated sediment temporarily loses strength and acts as a fluid, like when you wiggle your toes in the wet sand near the water at the beach. This effect can be caused by earthquake shaking.

Definition.

You can use an image or a diagram.

Epicentre

the part of the earth's surface directly above the focus of an earthquake

14

Your task:

Make a PowerPoint presentation (or Google Slides presentation) of the earthquake words you have been learning today. On each slide, include: one earthquake word, the word's definition and an image to help explain the word.

Handy tip: A good website for free PowerPoint and Google Slides templates is www.slidescarnival.com.
